

COLLECTION NOTES FOR PATIENTS  
**OCCULT BLOOD**

This test is to check for blood in your faeces.

Please collect **one** sample **each day** for **3** days.

1. Place a sample of faeces (about the size of a walnut) into the specimen pottle.
2. Label the specimen pottle with your full name, Date of Birth and date the sample was done.
3. Repeat this each day for 3 days.
4. Bring the sample to the laboratory on the day it is done.

If you have any problems please contact the Laboratory. Phone **(03) 769 7797**.
